

MT Range of Multi-Tone Sounders

Banshee^{MT}

Wafer^{MT}

FlashTone^{MT}

Banshee^{MT} and Wafer^{MT} Sounders

The MT Range of Multi-Tone sounders represents the most modern, acoustically advanced and by far the most flexible range of conventional electronic sounders and combined sounder/strobes available on the market today.

The Banshee^{MT}, FlashTone^{MT} and Wafer^{MT} come with 32 user-selectable tones incorporating low frequencies, high frequencies, European, American and Australian norms and all industry standard frequency patterns. Tested and approved to EN 54 Part 3, the Banshee^{MT} boasts leading acoustics, modern curves and low power consumption.

The Wafer^{MT} is the thinnest platform sounder on the market and is renowned for its 360° sound dispersal.

With beauty running in the family, the FlashTone^{MT} combination unit offers all of the modern features and functionality of the Banshee^{MT} but with the addition of several different coloured strobes to enhance the evacuation signal.

The Multi-Tone range is complemented by a wide selection of accessories to suit all applications. Together, the MT Range is unmatched for diversity and ease of installation.

Banshee^{MT}

- Industry leading sounder with enhanced aesthetics
- 32 user-selectable tones - industry standard compatible
- EN 54 part 3 tested and compliant
- LPCB and VdS approved
- Simple push and twist bayonet mounting with locking screw
- Easy to install with side and rear cable entry
- Robust 'two in two out' 2.5mm terminals
- Choice of three volume levels
- Very low current consumption
- Extensive series of accessories for a wide range of applications

Wafer^{MT}

- 32 tones designed to be compatible with Banshee^{MT}
- Slimmest profile in the industry
- Colours matched to leading detectors
- Omni-directional sound (see Polar Plot overleaf)
- Low current consumption
- Choice of three volume levels
- Installer friendly terminals
- Suitable for ceiling or wall mounting
- Front plate for stand-alone use available
- Robust and easily connected 'two in two out' 2.5mm terminals
- Supplied with fixing screws
